Cut energy use by up to

80%*

**START SAVING NOW,
AND KEEP ON SAVING**

This pump will quickly pay for itself through energy savings. Because it moves water more efficiently at lower speeds, it can cut energy use by up to 80%.*

THE DEPENDABLE VARIABLE SPEED PUMP YOU CAN COUNT ON FOR SAVINGS AND SIMPLICITY.

The SuperFlo® VST Variable Speed Pump is the ideal choice for everyday pool owners who want the best for the heart of their pool's circulation system. Its legendary savings and reliability come from Pentair, the company that pioneered variable speed pool pumps and continues to lead variable speed innovations.

*Savings based on variable speed pump compared to a single-speed pump running 12 hours per day at an average of \$0.16 per kWh in a 20,000-gallon pool. Actual savings may vary based on local utility rates, pool size, pump run time, pump horsepower, pump RPM, plumbing size and length, pump model, service factor and other hydraulic factors.

NEVER TAKES A DAY OFF

Internal components, like an improved mechanical seal and totally enclosed fan-cooled (TEFC) motor, stand up to harsh temperatures and chemicals.

EASY LISTENING

The SuperFlo VST barely makes a whisper. You'll be amazed at its quiet operation.

SIMPLE TO PROGRAM

This pump comes with an advanced onboard digital display and real-time, 24-hour clock that makes programming easy. Select from three programmable speeds plus an override to meet your specific needs.

INSTALLATION FRIENDLY

The SuperFlo VST is one of the only variable speed replacement pumps on the market today with 115-230V and 50/60 Hz single-phase capability.

IMPROVED CONNECTIVITY FOR HIGHER FLEXIBILITY

RS-485 connectivity for improved interface with automation systems and IoT devices to allow more flexibility.

THE SMARTER UPGRADE

The SuperFlo VST Pump is the superior drop-in replacement for the Hayward® Super Pump® and existing Pentair SuperFlo Pumps.
